

Object-oriented Programming and Software Engineering CITS1001

Multiple-choice Mid-semester Test

Semester 1, 2018

- **Mark your solutions on the provided answer page, by filling in the appropriate circles.**
- **Write your name and student number on the answer sheet, and also fill in the circles for both.**
- **The papers will be marked by an automatic scanner, so make sure that your selections are clear.**
- **There are fifteen questions: ignore options 16–125 on the answer sheet.**
- **Use the blank pages at the end for rough work.**
- **Feel free to separate the answer sheet from the question sheets, but hand in both at the end of the test.**
- **The time allowed is forty minutes.**
